

# CONCRETE DELIVERY PROFESSIONAL (CDP) BENEFITS

## HOME EVERY NIGHT

Ready-mix concrete has a shelf-life of approximately 2 hours, meaning it must be delivered locally. CDPs can expect to be home every night allowing for a crucial work/life balance!

## GREAT PAY & BENEFITS

Full time day shift schedules, health insurance plans, paid vacations, safety bonuses, and retirement plans are some of the benefits offered in the industry. As seniority levels are achieved, the rewards are drastically increased.

## PRIDE IN PROJECT COMPLETION

CDPs help to build cities and can feel a proud sense of accomplishment as projects are completed. Being part of a project from beginning to the end is a memorable experience and few are able to say "I helped to build that".

## MORE THAN A DRIVER

Starting off as a CDP, one will quickly evolve into a product expert. Concrete is a very unique and versatile product and dealing with its many performance characteristics every day will help to mould drivers into technical staff. On-site experience is invaluable for a company and CDPs are at the forefront of ensuring a quality product.
