COMPANY	FACILITY LOCATION	CERTIFICATE EXPIRY DATE	FACILITY STATUS	[†] TERM	ECO STATUS
---------	-------------------	-------------------------	-----------------	-------------------	------------

*N/A – ECO EXEMPTIONS

ECO Certification is not a mandatory requirement under the following conditions:

- A Portable concrete facility with its own ECA permit can operate at any site for up to 60 calendar days provided it meets the permitted air and noise separation distances.
- A Portable concrete facility that is located on an active construction site.
- A Concrete facility operating in other provinces does not need to meet Ontario MOE regulatory requirements; however, that facility shall meet any environmental regulatory requirements specific to that province.
- If a company purchases a facility with an ECA permit under a different company name, the new owner needs to apply for an administrative amendment to the ECA to change the company ownership information. However, RMCAO Certification cannot be transferred and a new inspection must be completed.
- When an RMCAO Active member purchases an existing concrete facility that is not RMCAO ECO certified at the time of purchase, the Active member may apply for in writing and may be granted up to a 180-day extension on the ECO certification requirements by RMCAO in order to allow for the necessary environmental engineering documentation and ECA application. Any extensions on the ECO Certification process issued by RMCAO will require the submission of a fully completed ECO Certification Check List by an RMCAO approved auditor by the date indicated in the extension letter. RMCAO Certification cannot be transferred.
- The concrete plant is located on First Nations Land and authorization has been granted by the first nations to set-up and operate the concrete plant.

[†]TERM

- Full-Term Audit:** The Audit and Check List must be submitted and is valid for a period of two (2) years from the facility's anniversary date.
- Mid-Term Audit:** While the Audit and Check List is valid for a period of up to two (2) years, the "Certificate" is only valid for a period of one (1) year. Prior to the issue of a Certificate for the second year, the certificate holder must supply the following information to the Association:
 - Summary Chart for Material Suppliers and Scale Check Data Forms
 - Summary records for the Concrete Mix Design Statistical Analysis Program for the past 12 operational months.

Inquiries regarding your plant status, please contact:
