

Job type(s): Full-time (permanent), Licensed
Location: Mississauga, Ontario, Canada
Position: Technical Services Engineer/Technologist

Description:

Concrete Ontario is looking for a Professional Engineer/Certified Engineering Technologist (CET) to assist in expanding our technical and marketing initiatives. The ideal candidate for this position:

Minimum Qualifications:

- Possess an Applied Science degree in Civil Engineering or Civil Engineering Technology
- Is a licensed professional engineer or CET in the province of Ontario
- Possess a valid Ontario drivers license
- Is a professional engineer with 4 - 6 years of construction industry experience or a CET with 5 - 8 years of construction industry experience

Ideal Qualifications:

- Strong knowledge of concrete and its constituent materials
- The ability to present technical information to a diverse audience
- Excellent verbal, interpersonal, and written communication skills
- Previous concrete construction and inspection experience
- Proficiency in the use of standard office and presentation tools
- Knowledge of the concrete industry, government standards, and design criteria
- Familiarity with concrete acceptance and testing methods

The candidate will assume the following responsibilities:

- Establishing strong ties with government agencies, contractors, and consultants
- Providing concrete technical support to members, contractors, consultants, and owners
- Working with the design and consulting engineering community to update specifications
- Supervising the Association's concrete plant and truck certification program
- Working closely with Concrete Ontario members and association volunteers to achieve marketing and technical objectives
- Implementing Concrete Ontario policies and best practices as defined by the industry
- Representing the Association on industry committees and various standards bodies
- Instruction of industry training and certification programs for both members and industry stakeholders
- Strong working knowledge of Occupational Health & Safety (OH&S) policies and procedures
- Travel throughout Ontario to organize concrete promotional and educational seminars
